About Me

I am a reliable and hardworking person with a responsible approach to work. I learn new things quickly and have a natural desire to continuously improve and develop my skills. I am flexible, able to work independently as well as in a team, and always strive to achieve the best results. I approach tasks with thoroughness, organization, and a positive attitude. For the past 5 years I have been educating myself in various programming languages.

Additional Information

During secondary school studies, completed a professional internship at IBM in Bratislava, working within the Devices Department. Became familiar with the department's operations and work processes in an international IT company. Had the opportunity to attend consultations with the head of the developer team, gaining a valuable insight into software development in practice.
