About Me

I am a senior software and data engineer with over 8 years of experience bridging the gap between software development and data science. I have led cross-functional teams, architected scalable data pipelines, and delivered machine learning solutions to production. I am equally comfortable designing backend systems as I am mentoring junior data scientists and establishing best practices across engineering teams.

Work Experience

Senior Data & Software Engineer — TechFlow Inc., San Francisco

2021 – present

Led a team of 5 engineers building real-time data processing pipelines in Python and Kafka

Architected microservices backend using Flask and FastAPI deployed on AWS with Docker and Kubernetes

Designed and optimised PostgreSQL and MongoDB database schemas for high-volume workloads

Spearheaded migration of legacy ML models to TensorFlow Serving, reducing inference latency by 40%

Mentored 3 junior engineers, conducting weekly code reviews and establishing CI/CD best practices

Data & Software Engineer — DataBridge s.r.o., Prague

2019 – 2021

Developed REST APIs in Python and Java for internal analytics platforms

Built predictive models using scikit-learn and XGBoost for customer churn analysis

Maintained data visualisation dashboards using Pandas, Matplotlib and Tableau

Collaborated with product team on A/B testing framework and statistical analysis

Junior Developer — StartSoft a.s., Brno

2017 – 2019

Built backend services in Python and Java

Developed data processing scripts using NumPy and Pandas

Wrote unit tests and maintained Git repositories

Assisted senior developers with PostgreSQL database design

Education

Czech Technical University, Prague

Bachelor of Science — Computer Science & Data Science

2013 – 2017

Skills

Skill	Level
Python	Expert
Java	Advanced
Flask / FastAPI	Advanced
SQL / PostgreSQL	Expert
MongoDB	Intermediate
Pandas / NumPy	Expert
scikit-learn / XGBoost	Advanced
TensorFlow	Advanced
Docker / Kubernetes	Advanced
AWS	Intermediate
Git / CI/CD	Advanced

Tableau	Intermediate
Kafka	Intermediate

Languages

English — Native

Czech — Advanced (C1)

Interests & Hobbies

Active open source contributor to scikit-learn and FastAPI. Speaker at PyCon Prague 2023 on production ML pipelines. Mentor at local coding bootcamp. Personal project: built a real-time stock sentiment analysis tool using FinBERT and LSTM — published on GitHub with 200+ stars.
